Professional Summary

Data analyst with experience in SQL and Tableau reporting, supported by Power BI and Tableau portfolio projects. Focused on KPI definitions, data validation, and business and operational reporting. Currently pursuing an MSc in Mathematical Modeling, Simulation and Optimization at the University of Koblenz.

Experience

Junior Data Analyst | Aim Brilliant

Jan 2021 – Jul 2022

Remote from India | Employer based in Texas, USA

- Analyzed business and operational data for retail clients using SQL and Tableau to examine performance trends.
- Developed KPI dashboards, scorecards, and data models for performance reporting.
- Checked reporting datasets for accuracy and consistency and gathered reporting requirements from stakeholders.

Data Analytics Intern | Diya Metal Industries

Mar 2020 – Sep 2020

Jamnagar, India

- Used Python and SQL to clean, transform, and analyze business datasets for a company selling metal parts.
- Built Power BI dashboards using SAP data to present business metrics to stakeholders.

Technical Skills

Analysis: SQL, Python, Excel

Reporting: Power BI, Tableau, DAX

Preparation & modeling: Power Query, data cleaning, data validation, data modeling

Automation & tools: Excel VBA, Git, Jupyter Notebook

Selected Projects

Customer Experience Analytics

Power BI, SQL, Excel

Personal project using simulated customer-support data

- Built a Power BI report covering ticket volume, CSAT, NPS, response and resolution times, and first-contact resolution.
- Prepared data using SQL and Power Query; documented validation checks, the data model, and DAX measures.

HR Performance & Reporting Automation

Power BI, SQL, Excel VBA

Personal project using simulated workforce data

- Built Power BI views of headcount, attrition, engagement, and training, with department filters and monthly trends.
- Included SQL checks and an Excel VBA routine for workbook refresh and PDF export.

British Airways Reviews

Tableau, SQL, Excel

Live Tableau dashboard | Historical review dataset

- Analyzed 901 reviews in Tableau; cabin staff had the highest average service rating in the sample.
- Compared ratings and monthly patterns, showing gaps in coverage and response counts, including only 14 Wi-Fi ratings.

Education

MSc, Mathematical Modeling, Simulation and Optimization

Oct 2022 – Present

University of Koblenz, Germany

Selected coursework: Data Science, Machine Learning, Big Data

Bachelor of Engineering, Mechanical Engineering

Aug 2016 – Sep 2020

Government Engineering College, Bhavnagar, India

Languages

English: C1 | German: B1, progressing toward B2
